LOCAL MATTER.

E. C. WOODSON, City Editor

MORNING EDITION.

LOCAL BRIEFS.

The cotton crop of Johnson, is generally good throughout the county.

Nothing of especial interest transpired in the Mayor's Court yesterday.

The wheat crop just harvested, and the corn crop of Chatham is very good.

There is a live Patagonian in the city. Soon Raleigh will be represented by every nation of the earth.

Dr. J. W. Alston, a well known and popular physician of Warren county, intends, we learn, to locate in this city.

Capt. J. C. King, Chief of Police, gives a timely notice to owner's of dogs. See the advertisement and act accordingly.

There are too many "good citizens" in Raleigh for us to know who that single one is that sends us a communication for publication ——. "Can't see it in that light."

We learn that Mr. H. C. Prempert, will move his barber shop in a few days under Julius Lewis' & Co's., store, and Mr. A. W. Fraps will open a cigar and tobacco stand in his old shop.

Prof. W. C. Kerr, our State Geologist, sailed from New York on last Wednesday on the steamer Java, bound for the Vienna Exposition.

On to-morrow evening Col. D. Wyatt Aiken, Special Grand Deputy of the National Grange, will organize a State Grange at Metropolitan Hall. Masters of Granges are requested to be present.

We learn from our old friend, W. M. Blacknall, of Granville, that the late drought has seriously affected the tobacco crop in that county, and at the present "look out," no more than a half crop will be made.

Capt. John W. Blount has severed his connection with the Life Association of America, to take a position on the Piedmont and Arlington Life Insurance staff. Capt. Blount has had considerable experience in life insurance in this State, and will prove a valuable acquisition to this already well established company.

The Durham tobacco market is said to be one of the best in the State. Messrs. Reams & Walker sold at their warehouse, on Friday last, one tierce weighing 367 lbs belonging to Dennis Tillery, of Granville, at $111.00 per cwt; also one for Joseph G. Lunsford, weighing 1,214 lbs., at forty-seven dollars and ninety-five cents per cwt. Sun cured tobacco is in good demand in the Durham market.

On motion the Board adjourned to meet on the 21st inst.

A CHAPTER OF ERRORS.—The last number of the Fayetteville *Eagle* contains an account of the excursion of the Raleigh Firemen to that city, which has as many errors as it has lines. We propose, however, to correct only a few. Capt. W. C. Stronach does not command the Hook and Ladder, but the Rescue; Capt. F. Lambson, is not the commander of the Rescue, but the Hook and Ladder. These two, however, are very slight, compared with the great mistake that the Eagle localizer made in insinuating that the "Rescue" Steamer had a contest with the Fayetteville colored company at the Market House, in which it stated that the Rescue threw *a few feet* above the colored company's engine. *There was no contest.* When Capt. Stronach was invited by Capt. Banks, of the Fayetteville Fire Department, to make an exhibition of his steamer at the Market House, neither one of these gentlemen had any idea that the colored firemen were on parade, or at the Market House, or Capt. S. would never have taken his engine there. While we are on this subject, we would further state, that had our companies known that the colored firemen would have paraded at the same hour that we appointed, (6 o'clock, P. M.) there would have been no parade of Raleigh firemen in Fayetteville, on that day.

The fact that the colored firemen were out and no effort made by any one to prevail upon them to desist from this act, which was construed by the Raleigh firemen, as extreme impudence, was nothing, compared to the notice of the Eagle that we were *contending* with them, and we sincerely hope that our brother local of the Eagle will correct the impression. We are satisfied that friend McGilvery (the local) did not intend any unkind reflection on the Raleigh Firemen, and his motive in the matter is pure, but the wording of his article would so imply, and we are satisfied that the correction will be made.

THE FAIR GROUNDS' RACE TRACK AND THE PREMIUMS FOR TURF EXERCISE.—The grading of the race track of the new Fair Grounds has been placed under the superintendence of Mr. Jas. D. Royster, and work will be commenced upon it at once. The premium list for turf exercises was adopted last week. It embraces some handsome premiums for each day during the week, the largest to be given on Wednesday, when a purse of $800 will be awarded, mile heats, best 3 in 5 to harness, the winning horse to beat 2:35. The entire premium list for the turf embodies nearly $3,000.

There is no dout but that the handsome premiums offered in this department will bring some of the best horses in the country to our Fair next Fall.

BALL AT KITTRELLS.—The first grand ball at Kittrells comes off on the 24th and 25th insts. The proprietors inform us that extra preperations will be made to render this the great event of the season.

LOCKVILLE ITEMS.—A fearful and most horrible accident occurred on beard the Steamer Geo. J. Lobdell, which was "lying in" at this port for repairs, on Friday morning last. The wheel was being repaired by a number of workmen under the superintendence of Capt. Brady, the commander of the boat. By some means, the wheel was prematurely put in motion, and Capt. Brady, who was standing at the time upon the shaft was thrown between the stern of the boat and the paddles. The face and shoulder of Capt. Brady were first caught by the paddles, and but for his full and stout frame which caused the paddles to break, he would have been instantly crushed to death. As it was, his nose and the skin to the bone, on its either side were torn off and hung as a cover over his mouth; his shoulders and arms were dreadfully mangled and bruised, and he was taken from the river where he was thrown as a dying man. Dr. Burns, the resident physician of the village was called in, and the wounded man attended to. At the latest accounts, yesterday morning, Capt. Brady was improving and strong hopes of his recovery entertained. We were informed by Dr. Burns, that but for the strong constitution, and healty condition of Capt. Brady, of which not one man in a thousand passes (the like of his,) death would have inevitably followed.

Capt. Brady is an Irishman of the stout, heavy built, brawny, red-faced stock, with the constitution of a mountain "black jack" and a flow of spirits that is worth half the medicine in Carmer's drug store. Should he recover from his injuries, which is now more than probable, nothing less than a twelve pounder parrot will ever send him to Davy Jones's Locker until nature's appointed time.

The town of Lockville as well as all the community around, (especially the young ladies) mourneth the early departure from their midst of Capt. L. R. Exline, who for several years past has been the efficient Superintendent of the Lockville and Deep River Mining and Manufacturing Company. By a combination of circumstances unknown to us, Capt. Exline resigned his position, which he has so long filled with credit to himself and profit to the company, sometime since, but has just determined to make his home elsewhere. We speak but the honest sentiments of all when we say the loss of Capt. Exline to the company with which he was connected is irreparable. But, for the public good to the mineral interest of our good old State *we hope* that the operations of this company will not be long retarded, and that under the new *regime* its former activity and prosperity will soon recuperate.

The population of the town is rapidly increasing and business of every kind is on the mend. The Mining and Manufacturing Company pay out to their employees, who spend their money here, 4,000 per month, to say nothing of what is spent by the operatives in the two large flouring mills, Silas Burn's foundry, railroad hands, farm laborers and other workmen.

The Cotton Hotel, situated on one of the loftiest peaks of the Chatham mountains overlooking the town below and the adjacent country for miles, is by far one of the best country hotels in the State. We might go farther and say for a good square meal, of just what a man wants, and exactly as he wants it, "mine" hostess of the Cotton House, can beat city, town or village in knowing how to prepare it.

The Clegg House under the management of Mrs. Burns, is also a capital boarding house. At either place summer visitors and tourists will find first class accommodations.

FRAP'S REPUTATION.—There is no man in the State better known than Fraps, the inimitable Lager beerest. A minister in a distant town in the State, the President of a flourishing Female College, writes us— * * * * Now, Woodson, can't you be with us? B. P. C.—— can supply —— well, I don't know that he does "tap" a Lager cask altogether so often and at such entirely accommodating intervals as FRAPS —— but I'll guarantee you satisfaction in all (substantial) respects. * * * * * * * *"

We shall endeavor to be on hand.

GRAND DRESS BALL.—We return our thanks to Colonel George W. Taylor for an invitation to attend a grand dress ball at the Atlantic Hotel, Beaufort, on the 16th and 17th insts. This, it is said, will be one of the grandest affairs of the season, and a general good time is anticipated.

The floor managers are Messrs. Dr. James L Manney, James Rumley, Geo. W Charlotte, J Henry Davis, E D Stimson, Thomas L Duncan, C G Lambert, Esq., Colonel A C Davis and S E Allen.

Honorary Managers—Captain E C Woodson, Hon Sion H Rogers, George Snow, Dr Fab Haywood, Judge Fowle, William Mason, Esq., and F H Busbee, Esq.

PERSONAL INTELLIGENCE.—Judge Marshall, of Danville Va., and Colonel Talcott, General Superintendent of the Richmond & Danville Railroad, are in the city.

Capt. J. J. Davis, and Capt. Chas. M. Cook, of the Louisburg Bar, and Judge Davis Barnes, and Capt. R. B. Peebles, of the Jackson Bar, are in attendance upon the session of the Supreme Court.

Maj. A. M. Rheinhardt, A. M. of the University of Virginia, has accepted a professorship in the Raleigh Female Seminary, and will take several of the classes of Proffessor Redd, who will devote his time to the conduct of the Biblical Recorder.

LOUISBURG ITEMS.—Our Louisburg correspondent, C. M. W., sends us by last evening's mail the following items from his place:

Beautiful and refreshing rains the past week, followed by any quantity of hot weather.

Roguery seems to be the order of the day here just now. Two colord gents, viz: London Williams and Gid Perry, a few days since, in broad day light, entered the basement of Col. J. F. Jone's store, through a window while the young men were at breakfast, and passing through a trap door (which they closed behind them) to the store room, abstracted from the cash drawer about $200, of which about $80 was in crude gold. The mischief was soon discovered by one of the salesmen, and pursuit after the rogues at once made. They were fortunately overtaken, the money recovered, and the offenders lodged in jail.

No 2, was a raid of the same nature by one Stephen Perry, a colored boy upon the store of T. N. Carlisle, (also in the day time) and made away with five dollars, Mr. Carlisle, who was at work in his back room, gave the alarm, and a posse started in pursuit. After an exciting race of a mile, the young negro was overtaken and the money recovered.

The closing exercises of the Louisburg Female College commences on Wednesday the 9th inst. Col. W. F. Green delivers the annual address Wednesday night; concert by the young ladies Thursday night; social party Friday night. We will be pleased to see the NEWS represented in person. (We shall be on hand—W.)

The purse was $750. The horses entered were, "B. H. Thornhill," "Nell Flahearty," "Thad Stephens," "Queen" and "Twenty Cents." The first heat was won by "Thornhill" in 1:43, beating "Flahearty" by half a length. In the second heat "Flahearty" made a half mile in 51 seconds, leading "Thornhill," but the latter came home again ahead, repeating his previous time of 1:43. In the third heat "Thornhill" led to the half mile post, passing it in 50½ seconds, but the heat, as well as the fourth and fifth heats, was won by "Thad Stephens" in 1:43¼, 1:46½, and 1:45. At Augusta the christian church was levelled and the steeple of the Presbyterian church was prostrated. A grain elevator was blown over, houses were unroofed, and much other damage done. Empress Eugene on the situation.

NEW YORK, July 7.—A letter from Geneva to the *World* gives a conversation with the late Empress of France. She says her visit to France is for political purposes, and 'tis useless to try to conceal it. She believes there soon will be a general return of people to order, and said the Piedmontese Government at Rome, the anti-Christian and Pagan Court at Berlin, and the Wild Communists at Madrid are filled with fear are the awakening of Catholic France. Now that the wretched Thiers is gone all moves; that MacMahon is President and loves France, the future, said Eugene, is ours, and France will lead the reaction against forces which have seemed to threaten the existence of society and religion throughout Europe. She saw in the future that France may again be at the head of the nations; the robbers driven out of Rome, the Pope restored, Germany divided into harmless States, Austria is again strong.

The Raleigh Daily News.

JORDAN STONE, Managing Editor.
SAM'L T. WILLIAMS, Political Editor.

TUESDAY.....JULY 8, 1873

☞ The Polltical Editor of the NEWS has been absent from the city for several days past, enjoying a little sea-breeze He will doubtless be on duty again tomorrow.

FRAUDS IN THE REVENUE DEPARTMENT.

The Raleigh NEWS announced the fact in its local columns several weeks ago that there were rumors afloat in the city, charging that immense frauds had been discovered in the Revenue Department of this District. We farther announced that as soon as an investigation was had, we would publish all the facts, so that the public might know who were the guilty parties.

We afterwards published the fact that a number of indictments were fonnd by the Grand Jury of the Federal Court against several officials in the Revenue Department for malfeasance in office, and other offenses.

We have noticed two communications in the *Sentinel* recently, one written by a Republican and the other signed "Inquisitive," both exhibiting a feverish concern at the tardiness of the Raleigh papers in not exposing the Revenue defaulters, &c., and containing insinuations against the independence and purity of the public press.

If these anonymous gentlemen will come out from their secret hiding places, in the light of day, and, under their own names, provided they be responsible ones, furnish us with evidences of fraud and corruption against Federal or State officials, we will not only publish their articles, but thank them for their services.

We offer the use of the columns of the NEWS to the anonymous scribblers who have so causelessly assailed the Raleigh press, without exception, and who seem to be *itching* to expose "malefactors."

We suspect, if the truth was known, these craven-hearted, would-be assassins of the public press are not so anxious to turn the rogues out of office for the benefit of the public, as they are to step in the places of the suspected parties, whose positions they so much covet, in order to have a chance to do a little stealing themselves.

We have been promised a full *expose* of the rascalities that have been practiced in the Revenue department in this District. As soon as we can get the facts upon higher authority than street rumors, they shall be given in full through our columns.

The RALEIGH NEWS will not shrink from the discharge of its duty in exposing guilty Revenue officials, no matter by whom the frauds may be committed; but it will not go off half-cocked, nor strike down the innocent with the guilty.

Charges affecting a person's personal and official integrity should not be lightly made. It does not add to the character or influence of a newspaper to be constantly making assertions it cannot prove, or allowing itself to become terribly excited over wild rumors, not grounded upon authentic intelligence. We repeat, if the anonymous gentlemen who are so fond of exhibiting their cheap honesty in their paper fulminations will, over their own responsible names, furnish us with evidences of official rascality, we will take pleasure in laying their articles before the public.

It is well known that frauds have been committed in this Revenue District, and that to a considerable extent. The guilty parties cannot escape punishment, and will be held to a rigid accountability. What transpired in the Federal Grand Jury room—what evidence was adduced—has not yet been made public. At the proper time and in the proper way, all will be made known. But in the mean time we do not propose to make the NEWS the vehicle of anonymous defamation of any public officials at the instance of any individual.

We shall pursue the even tenor of our way unmoved by any false clamor that may be attempted to be raised by newspaper sneaks, whose wholesale denunciations of the Raleigh press fall harmless at our side so far as they seek to create the impression that the NEWS shrinks from its duty in the matter of Revenue frauds.

THE NEW YORK, NORFOLK AND CHARLESTON RAILWAY.

The Norfolk *Journal* of a recent date thus alludes to this project, which was so freely discussed in our Legislature last winter. Says the *Journal:*

"This newly projected railroad enterprise, which we took occasion to briefly notice some time ago, is an important movement for the city of Norfolk, starting, as it does, from the city of Charleston, and running in an air line through the eastern counties of South Carolina, enters the State of North Carolina in Columbus county; thence northward through the counties of Sampson, Duplin, Bladen, Pitt, Wayne, Bertie and Gates, enters this State at or about Somerton, passing west of Lake Drummond to this city.

"By a reference to the map it will be seen that the above route makes a strictly air line, thereby saving very considerble in distance over existing routes to Charleston, Savannah, Mobile, New Orleans and Cedar Keys, where it will make a very direct and expeditious connection with the Gulf and Havana steamers for the West India Islands.

"This railroad project, to our mind, is, as before stated, of much import to our city, draining, as it does, the entire Gulf and Atlantic cotton States, and emptying their rich products into this city. It must have the effect to give Norfolk great commercial importance, and with the already existing steamship lines running from here to the Northern cities and Europe, will soon enable our city to take rank as it naturally should—a first class commercial city.

"We hope to see this new undertaking pushed forword with energy to completion, feeling, as we do, that with the rich country south of our city, its splendid harbor accessible at all times, it needs but such orteries as the New York, Norfolk and Charleston Railway to enter our city, and thereby demonstrate our superior advantages as compared with other cities less favorably situated.

"The president, vice president and managers of the above road are visiting Norfolk with a view to an inspection tour along the proposed route from Norfolk to Charleston. The engineers of this company have been at work for a month past running the line southward from this city, and have just entered North Carolina at or about Somerton. The chief engineer will accompany the officers to Charleston, where work will be begun at once proceeding northward."

Life at Saratoga.

The piazza of the American watering-place hotel is always a feature—at Saratoga it is the place. Twenty feet or more in debth, extending along the whole frontage of the hotel on Broadway, raised several feet above the sidewalk, and protected from the sun by a lofty verandah and magnificent shade-trees, it tempts every guest in the hotel as a resting-place or idling place. Some pass the entire day there. It is always crowded with groups, and presents the liveliest scenes. Ladies in every description of toilet, but without bonnet or hat—they even sometimes discard their head-gear in walking about the streets—croquet with the younger men, and use their arts and wilds in order to secure their escort to the spring, the bon-bon shop, or on a drive to Glenn Mitchel; stately matrons endeavor to surpass one another in dignity of demeanor; little children run about and boast of the many glasses of water they have drunk, and vex the "lean and slippered pantaloon" of the period by apparently regarding this water drinking as a big joke. To these old fogies water drinking is a severe matter of business—the means to enable their worn-out systems to struggle on for still another year—a duty which they consider even more imperative than the saying of their prayers. They are called every morning at 5 o'clock, they totter on the arm of a valet to the spring side, they drink their regulation number of tumblers of water, and they totter home again, to pass a day of grumbling and mere existence; and thus they pass their sojourn at Saratoga, wandering backward and forward between their hotel and the springs, and wishing all young people elsewhere. The professional water-drinker, too, hates the ball evenings, and anything but loves the afternoon concert given by the hotel band in the hotel gardens. But others do; and many a soft whisper is puffed away by the breeze, many a gay and happy coterie laughs away the afternoon to the time and tune of the music.

The Richmond *Enquirer* still continues to urge the necessity of polling the full Conservative vote in Virginia. It says: "We have little more doubt that the Conservative party will carry the State in November than we have that November will come, provided we have our whole strength at the polls on the day of the election. And unless our voters are convinced of the danger of being beaten, unless they come out in full force, many of them may do as was done by thousands at the Presidential election—remain at home and learn too late that the State is lost when it might have been so easily saved The Radicals, as we have said, will have their whole host massed against us. They will strike with all their strength. They know we have superior numbers. But they do not know that all our voters will vote. Let us determine to give them no advantage. As soon as our nomination is made, let us organize in every township in the State, and from the beginning of the campaign to the close, let us warn the people of the danger, and arouse them to the duty of the day on which the destiny of Virginia must be determined."

The owners of the New York Daily *Graphic* have entered into an agreement with Professors Wise and Donaldson, which assures, in all probability, the attempt to cross, during next month, the Atlantic Ocean in a balloon constructed especially for the purpose. The agreement recites that, in this balloon, Professors Wise and Donaldson "will, on a day and from a starting-point to be selected by the 'The *Graphic* Company,' make a public ascension, accompanied by such other persons as may be designated, seek the elevation of the eastern air current, there to remain until land shall have been made on the eastern side of the Atlantic Ocean, and will then land the balloon as safely and expeditiously as possible, and immediately communicate the intelligence of their arrival, with full particulars of the voyage, by the most speedy means available." Of course, if successful, the voyage will be a great card for the enterprising *Graphic*. Of Professor Donaldson we know nothing, but Professor Wise occupies a responsible position in Philadelphia, and is spoken as a man of honesty and reliability.

A new use for electricity is noted by a New Haven paper, being nothing less than the instant recording upon paper, by means of an electrical attachment, of the notes and flourishes of extempore organ playing, and thus preserving with accuracy the fugitive flights of musical genius, which would otherwise be lost to the world. The idea was first entertained by a Mr. Shelton, father of a somewhat celebrated boy organist, who saw in it a means of securing permanence for some of the surprising impromptus which scintillatad beneath his son's skillful fingers. A well known manufacturer of electrical machines is at work upon the contrivance, which, if it succeeds, will be of immense value to musicians, all of whom, in some moments of inspiration, draw from their instruments sweeter tones and more delightful melodies than they could ever transfer to paper.

The tunnel on the present finished Pacific railroad under the main ridge of the Rocky Mountains has been begun. It enters the mountain near Black Hawk and emerges in Middle Park. The tunnel will be twelve miles long—nearly twice the length of the Mont Cenis tunnel, between France and Italy, under the Alps, which is a little over seven miles long, and is the longest tunnel in the world. The object of the Rocky Mountain tunnel is to avoid the grades and frosts of the mountain, and to reap vast mining profits that are hoped for.

SPECIAL NOTICES.

BILLOUS.—If you feel dull, drowsy, debilitated, despondent, have frequent headache, mouth tastes badly in morning, irregular appetite and tongue coated, you are suffering from Torpid Liver or "Billiousness." In many cases of "Liver Complaint" only a part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy. Sold by all first-class druggists.

How unnecessary the anguish many persons undergo from rheumatism, gout, neuralgia, toothache and earache. We say unnecessary because the application of Mexican Mustang Liniment to the affected part, or a few drops of it in the ears or tooth, affords instantaneous, and what is better, permanent relief. For cuts, wounds, bruises, swellings, and all injuries or diseases which require treatment ext rnally, this liniment is everywhere regarded as the most potent and reliable healing agent in existence. For all external injuries or ailments of horses and cattle, it is infallible.

His Honor, HENRY POTTER, late Judge of the United States Court for the District of North Carolina, gave the following as his opinion of Beckwith's Pills:

"For some ten or twelve years past I have been in the habit of using DR. BECKWITH'S ANTI-DYSPEPTIC PILLS in my family, and consider them so valuable a domestic medicine, that I never suffer my stock to be exhausted. I have used them with good effect in dyspeptic cases, and in various modifications, and have found them efficacious in relieving from Sick Headache, and from all the usual symptoms of functional derangement of the viscera. As an apperient, they are excellent. I have long had the pleasure of an intimate acquaintance with the inventor of these Pills. He is a gentleman of talents, integrity and worth, and he ranks high in the science of medicine and the healing art.
H. POTTER."

TUESDAY.....JULY 8, 1873

NORTH CAROLINA.

Warren county had fine rains last week.

Iredell county had only three marriages last month.

Wadesboro now rejoices in green corn and tomatoes.

English colonists wish to buy land in Rockingham county.

Eleven new houses are in process of construction in Statesville.

The concert in Warrenton, on Friday evening, for the benefit of the Oxford Asylum, realized $30.

A man by the name of John Saunders, fell dead the other day while cutting wheat in a field near Ansonville.

Warrenton has had a mad-dog excitement, on Sunday of last week. The poor brute was soon added to the list of victims to popular superstition.

Sufficient stock has been subscribed and the necessary amount of money has been paid in to secure the charter to the Statesville and Mt. Turnpike road.

It was rumored in Madison, Rockingham county, on last Tuesday, that a little daughter of Mr. Willis C. Turitt, had been killed by a bite of a snake.

In 1850, Mr. Richard Steele, of Iredell county, caught a highland terrapin and placed a mark on its back. The other day while cutting wheat he came across the same old terrapin.

The meeting of the ex Confederates at Statesville, on the 4th, was well attended. T. S. Tucker presided and C. R. Jones acted as Secretary. Hon. M. Robbins submitted a series of resolutions urging the necessity of gathering up facts in relation to the deeds of North Carolina during the late war, and appointing a committee to issue an address to the public in relation to the matter. The resolutions were adopted. A germ of a Survivors Association was formed. We condensed the above from the *Intelligencer*.

Says the Madison *Enterprise* of the 2nd instant:

"We are called upon to record the untimely death of the daughter, aged 10 years, of Mr. W. S. Bolling, a respected citizen of this neighborhood. The accident as we get the facts happened, as follows:

"On last Saturday evening, (Mr. Bolling, the father, being in Madison at the time,) Mrs. Bolling gave her daughter a cord and told her to go up stairs and tie up a broom. She took the cord and started off in her usual good humor, and remarked to her little sister she believed she would go up stairs and hang herself with the string. The remark gave her mother no uneasiness as she had heard her use such expressions before. When she had stayed up stairs longer than necessary, her mother went to look after her, and found her hanging a lifeless corpse. She had found something to stand on so as to reach the joist, to which she tied the cord and the other end around hes neck, she then jumped off and broke her neck. There is no reason to believe she intended to do so rash an act as to destroy her life. But no doubt the sad accident was caused by wantoness and a foolish desire to try what proved to be a fatal experiment."

The concessions made by the Shah of Persia to Baron Reuter are the subject of much comment by the American press. One paper called the transaction "The lease of an Empire," and another "Civilization by contract." The grants made to Baron Reuter is certainly regal in its character. Probably no Sovereign has ever given a foreigner such prerogatives. The Baron is to build a railroad from Teheran to the Caspian, and the Shah guarantees five per cent. on the capital and two per cent. os a sinking fund. He also agrees to be responsible to the extent of thirty millions of dollars for the money necessary for other public works. All Government lands needed are to be given free of costs; privileges of importation without duty are conceded; Government forests are at Mr. Reuter's disposal, and the customs revenue at very nearly its present valuation is handed over to him for twenty-five years

The *Courier-Journal* it is that remarks: Some forty years ago a parcel of fellows who were hunting stray cattle among the everglades of Florida came upon a party of Indians—the compatriots of Osceola—engaged in skinning some beeves. They fired into the party of Indians and killed five of them. That one volley of buckshot cost the Government $30,000,000.

The Boston *Traveler* says Charles Francis Adams is now mentioned as the possible, perhaps one might say probable, candidate of the Democrats for Governor of Massachusetts at the approaching election, and it is hinted that the secret societies organized to oppose the prohibitory law will support him as heartily as kindred organizations did his son a few years ago.

A Danbury boy was on the stoop reading a murder trial, Saturday afternoon, when his father said to him: "How does the the thermometer stand, Thomas?" "Unanimous for acquittal on the ground of insanity" was the mechanical reply. Thomas is sore yet, he says.—*News.*

His Highness, the Khedive of Egypt has ordered a dinner service for the contemplated fete in honor of the Sultan's concession to him of enlarged sovereign powers. Five thousand carats' weight of diamonds are to be used in the golden vessels.

Republicans are talking about Senator Hamlin's successor down in Maine. He is a candidate for re-election, and among his competitors are Governor Perham, Isaiah H. Drummond, Israel Washburne, Jr., and Eugene Hale.

Prince Charles, of Seininger, a cousin of Queen Victoria, has been tried and convicted at Mannheem, Germany, and sentenced to a brief term in the Penitentiary for forgery.

Macon has offered a premium of $500 for the best drilled white company appearing at the Georgia State Fair in October next.

Geo. C. Deneale, of Rockingham county, Va., says he will accept the Republican nomination for the Governorship if tendered.

Affairs at Davidson College—The Commencement.

DAVIDSON COLLEGE, N. C., July 4.

The late Commencement here was more than usually successful. Our Chapel will seat twelve hundred persons comfortably, and on graduation day it was more than half full of ladies. Two sermons, two addresses, and sixteen orations were listened to and applauded during the week, and all the more heartily because of the capital music with which the most of them were sandwitched by the well drilled Louisburg band. No one ought to have been disappointed, and we hope none were. Dr. Irvin's Baccalaureate was a manifestation of the grandeur of the Christian's relation to the world in which for a time his lot is cast. Dr. Craven's Missionary sermon called attention to the fact that our Saviour came not to reform or to develop, but to destroy. Gen. Clingman's address was on the insufficiency of human pursuits to secure human happiness unless they are directed by benevolence and endorsed by conscience. Mr. McDowell's was a recommendation of intelligence and morality as preventives of apathy and licentiousness. The Society Representatives and the Seniors discussed various interesting and important matters in various styles, but all creditably.

There were twenty-six graduates, among whom Mr. Samuel S. Burton, a grand-son of the famous teacher of Rockingham county, was the valedictorian. The salutatorian was Mr. O. Davis, a son of the well known banker of Salisbury, who besides, with Mr. E. Cocke, of Asheville, won the rare honor of having never snapped prayers, recitation, or church, during this college course. The prize offered to Sophomores for excellence in Latin composition, was won by Mr. Lunsford Richardson, of Johnston county, a worthy pupil of those excellent teachers, Messrs. Graves and Horner, of Oxford.

One hundred and thirteen students have been at Davidson College during the past year, and they were all collegians proper. None were "*preps*," and is not transgressing the bounds of modesty, to say that the facilities for a general education at Davidson College, are not surpassed, if they are equaled elsewhere in North Carolina. They are controlled by Presbyterians, but have been enjoyed during the past year by representatives of all the principal denominations in North Carolina.

If you don't believe what I say, Mr. Editor, just come and see for yourself. If you had stopped here some commencement week, it is very likely that you would not have had to go to Alabama for what you wanted.

I am yours, C.

The latest musical agony is, "Hush, Sister's Dying," with piano accompainment.

There is to be an inter-national chess contest at Vienna for a prize of $2,000 in gold.

The Shah of Persia gave $4,000 worth of presents to the imperial servants at Potsdam and Berlin.

It is estimated that the Alabama coal fields will yield enough coal for 2,000 years consumption.

TUESDAY.....JULY 8, 1873.

THE LAUGHING PHILOSOPHER.

I know a funny little boy,
The happiest ever born;
His face is like a beam of joy,
Although his clothes are torn,

I saw him tumble on his nose,
And waited for a groan;
But how he laughed! Do you suppose
He struck his funny bone?

There's sunshine in each word he speaks,
His laugh is something grand;
Its ripples overrun his cheeks
Like waves on snowy sand.

He laughs the moment he awakes,
And till the day is done;
The school-room for a joke he takes,
His lessons are but fun.

No matter how the day may go,
You cannot make him cry;
He's worth a dozen boys I know,
Who pout and mope and sigh.

He's plump and round—he once was slim;
I have not told you half—
I soon expect to hear of him
Exploding in a laugh!

A Wild Huntress.

The Wheeling *Register* of the 29th ultimo tells the following story on the authority of Julius Messenger, of Windridge, Green county, Pa., for whose veracity it vouches:

A man living near Windridge, Green county, Pa., had born to him five children, four girls and one boy. His name is Daniel Lewis. When quite young the boy and second daughter, named Lucinda Lewis, developed quite a fondness for hunting, and were out nearly all the time, roaming the woods in search of game. They seemed to delight in nothing so much as the free life of a hunter, and would be gone from home four weeks at a time. After some four or five years the boy quit, and entered on the more industrious pursuits of life, but the girl continued in the chase. Drawing herself more and more from human intercourse and restraint, she has become a wild woman, fleeing from the approach of her kind with the speed of a deer.

During the early years of her solitary life she used to approach her father's house and entice the dogs to follow her, teaching almost any breed of dogs to become good hunters. In the hope of bringing her back to her home and to civilization, her brother followed her and shot the dog she had taken away, using every inducement to get her to go back with him. But all in vain.

For eighteen years, since she was twelve years of age, she has lived this wild life, sleeping in the centres of straw stacks during the night, and hiding in them during the summer the wild and cultivated fruits she intends for winter's store of provisions. She is now thirty years old, and is as wild as the untamed denizens of the forest.

Mr. Messenger says he at one time, while out hunting, met her in the woods. Her long black hair covering her face and eyes, was matted with burs and leaves, and her black flashing eyes made her a startling picture. She remained perfectly still until he got within twenty feet of her when she turned and fled with a swiftness no man could hope to rival.

A few days since she was seen again, and then had in her hand three pheasants and four rabbits, but although encumbered she eluded every attempt to capture her. She has been so long in the woods that she has become perfectly wild. Her dress is made of the skins of wild animals and a blanket that she has taken somewhere during some of her nocturnal predatory tours.

Dooley's Yeast Powder cannot be excelled for making light, sweet Rolls, Biscuits, Waffles, Corn Bread, &c. It is always ready and reliable.
